Enterprise Architecture and Business Process Solutions  
For Microsoft and Visio users

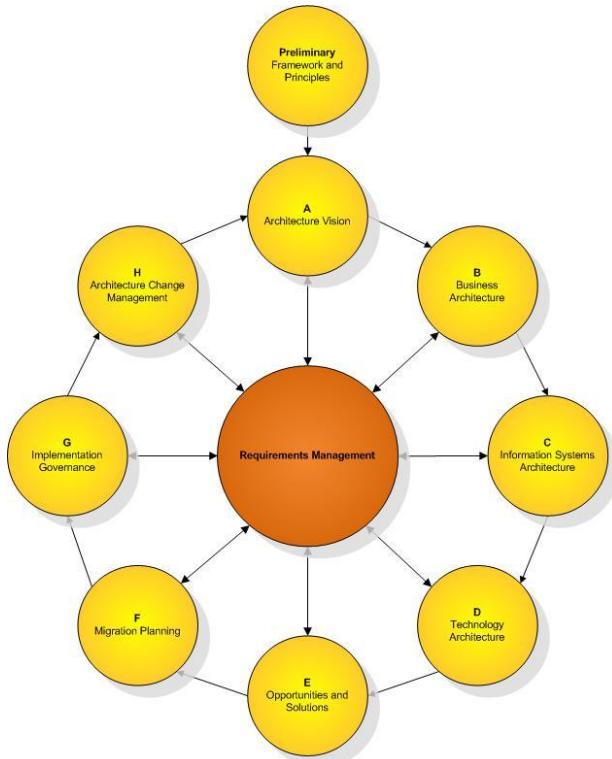

## TOGAF 9 In Pictures

This guide has been designed to give a quick and simple pictorial introduction to TOGAF9, broken down into 6 main 'modules', following the modular structure of TOGAF9, which has been a change from TOGAF8.

**TOGAF is an Architecture Framework which has been developed by the Open Group** “*to provide the methods and tools for assisting in the acceptance, production, use and maintenance of an Enterprise Architecture*”.

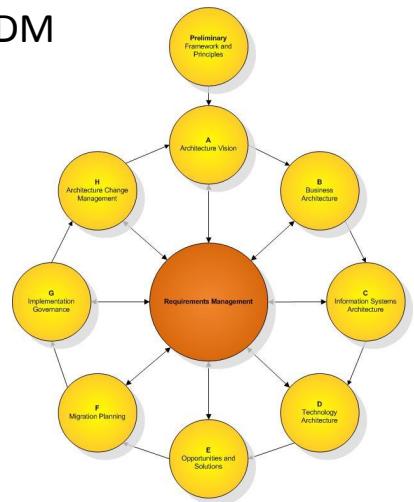

THE *Open* GROUP  
Making standards work®

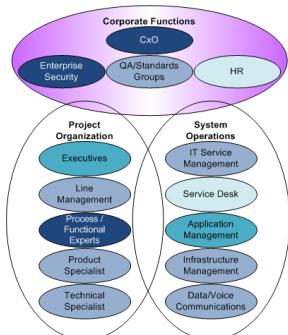

# TOGAF9 Modular Structure

Solutions Modelling	4	2	3
Benefits Analysis	4	4	2
Business Interworking	4	3	1
Systems Behaviour	3	3	2
Project Management	3	4	2

Job Description: Enterprise Architecture (Business)

**Skills Required:**

Architecture Views & Viewpoints Design : Expert  
 Building Block Design : Expert  
 Solutions Modelling : Expert  
 Benefits Analysis : Expert  
 Business Interworking : Expert  
 Systems Behaviour : Knowledgeable  
 Project Management : Knowledgeable

## Measure

**STAFF DEVELOPMENT**  
**RIGHT FIT**

## The Modules of TOGAF9

### The ADM

Steps to Develop an Enterprise Architecture

### ADM Guidelines and Techniques

Support application of the ADM

### Architecture Content Framework

Detailed model of architectural work products

### The Enterprise Continuum

Model for structuring a virtual repository, classification framework

### TOGAF Reference Models

Technical Reference Model; Integrated Information Infrastructure Reference Model

### The Architecture Capability Framework

Structured definition of organizations, roles and responsibilities to establish and operate an Enterprise Architecture

## Get a Live Product Demonstration

For a more information on TOGAF9 and its application in the iServer TOGAF9 Quick Start Solution, register for an iServer Demonstration.

A web demonstration is free and will only take an hour of your time!

One of our experienced process consultants can demonstrate the software to you using a repository based on the TOGAF9 Framework.

To book your demo, please send us an email and we will contact you to build your meeting agenda.
